

Contact: director@skyviewlearning.ca

We are pleased to announce the opening of our early childhood center, Skyview Early Learning Village at the Calgary Generations campus. It is located at 120 Skyview Ranch Drive NE.

The Skyview Early Learning Village offers a safe and nurturing environment for young learners, while enriching the physical, social, emotional, creative and intellectual development of your child. We recognize the role that every member of our village plays in shaping the values and attitudes of our future global citizens.

Our programming recognizes that the early years are the most critical for a child's growth and development. Young children learn best in the context of appropriate sensory inputs as well as stable and supportive relationships and interactions. The early years also build the foundations for thinking, language and behavioural attitudes.

Our Learning Environment

We foster strong, active, and energetic early childhood culture. Our happy, safe, and organized learning spaces are designed to provide an enriching environment for young learners that include:

- a rich array of engaging materials that support social interactions as well as build autonomy and initiative in children.
- materials that are thoughtfully designed and selected to reflect the linguistic and cultural heritage of our students and their families.
- promote literacy, numeracy, and foundational skills necessary for future school success.
- equipment to support active development through physical play and interaction.

Our Curriculum

We follow ***Flight*** - Alberta's Early Learning and Care Curriculum Framework which guides the practice of educators working with children and their families. Children's play is central to the curriculum framework. It is an active, exploratory, creative, expressive process, embedded in children's everyday experiences and through which children participate in, learn about and actively make sense of the world.

Makovichuk, L., Hewes, J., Lirette, P., & Thomas, N. (2014). Flight: Alberta's early learning and care framework.

Learn more about FLIGHT at <https://flightframework.ca>

Our curriculum is enriched by on-site intergenerational programming. This unique offering allows children to positively interact with the residents of Generations, Calgary. While benefiting both the young and the aged, it enhances family values, promotes appreciation for cultural and linguistic heritage, fosters empathy, brings joy, and nurtures a feeling of belonging in all ages under one roof.

Our Educators

Teresa Ebbert, our centre Director, has a degree in Human Service Administration and a diploma in Early Childhood Development. She has over 25 years experience in childcare, out of school care and early intervention programs. She is passionate about high quality, inclusive programming for children and families.

Our trained educators recognize their role as co-constructors of the **flight** curriculum in partnership with each child to ensure that they can explore and develop their own interests at their own pace.

Our care providers value their position as co-learners, co-researchers, and co-imaginings of possibilities alongside and in relationship with children, families, and others in our dynamic inter-generational community.

Our Operator

"It takes a village to raise a child" - African Proverb

The centre is operated by the Victoria Village Group, established in 1983. They own and operate licensed and inspected Childcare Centres, Private Home Daycares, CCMA Accredited Montessori Private Schools and Technology Integrated Private Schools.
